CAREER OBJECTIVE

To begin my career in a reputed organization where I can apply my skills and knowledge gained during my diploma and grow professionally.

PROJECTS

Employee Salary Prediction, AIML *2025- 2026*

The Web Application can analyze the Organizations benefits from salary prediction by achieving equitable compensation, attracting talent, streamlining the hiring process.

- Used HTLM to create a website, Flask as a Framework, KNN & SVM.
- It allows the Organization to predict the salary by achieving; equitable compensation, attracting talent & marking budgeting decision based on data-driven insight.
- I have learned how to check the vulnerabilities in the application & learn more about it; in my Cyber Security course.
